Attachment: Replacement Sheets 1 – 4 (In Appendix)

**REMARKS**

The present amendment is in response to the Office action dated May 17, 2006 where the Examiner finally rejected pending claims 6 – 12, 15, 17 – 21, 23 – 25 and 27 – 30. Claims 22 and 26 were objected to, but indicated as allowable if rewritten in independent form. In the present amendment, claims 6, 15 and 23 have been amended and claims 21, 22, 25 and 26 have been cancelled without prejudice. Claim 31 has been added Accordingly, claims 6 – 12, 15, 17 – 20, 23, 24 and 27 – 31 remain in the present application with claims 6, 15 and 31 being independent claims. A notice of allowance directed to remaining claims 6 – 12, 15, 17 – 20, 23, 24 and 27 – 31 in view of the amendments and the following remarks are respectfully requested.

**A. Allowable Claims**

Claims 22 and 26 were indicated as allowable if rewritten in independent form and to include all of the limitations of the base claim and any intervening claims. Applicant has amended independent claim 6 to include the limitations of allowable claim 22 and intervening claim 21. Accordingly, Applicant respectfully requests allowance of claim 6 and its respective dependent claims.

Similarly, Applicant has amended independent claim 15 to include the limitations of allowable claim 26 and intervening claim 25. Accordingly, Applicant respectfully requests allowance of claim 15 and its respective dependent claims.

**B. Drawings Objection**

As required by the Examiner, replacement figures 1 – 4 are submitted to include the camera device in the remote control access point for establishing video conferencing as recited in claim 7. Regarding the microprocessor recited in claims 15 and 20 – 21, the Examiner is directed to element 156 of figure 8, which illustrates this feature. In view of the amended figures 1 – 4 and figure 8, Applicant requests that the objection to the drawings be withdrawn.

**C. Rejection under 35 USC §103(a)**

In the Office Action, claims 6 – 12, 15, 17 – 21, 23 – 256, and 27 – 30 were rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,686,838 (“Rezvani”). Applicant respectfully maintains that Rezvani does not fairly teach or suggest the claimed invention, however the independent claims have been amended to incorporate the features of the allowable claims and accordingly the rejection under § 103(a) is moot.

**D. New Claim 31**

Applicant submits new independent method claim 31 to more clearly and expressly claim those features up which Applicant previously relied and that the examiner identified as not being recited in the claims. Importantly, claim 31 is from the point of view of the wireless communication device so each step in claim 31 is undertaken by the wireless communication device.

Specifically, claim 31 recites that the remote control programs are located in a data storage area on the wireless communication device being controlled by the remote control access point. Additionally, claim 31 recites that the wireless communication device establishes a data call between the wireless communication device and the remote control access point. Claim 31 also recites that the wireless communication device receives an instruction from the remote control access point and in response the wireless communication device executes a remote control program.

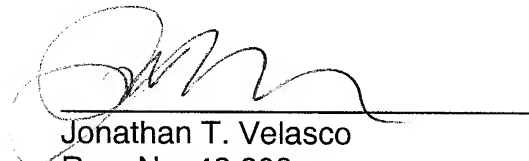

Each of these features are not fairly taught or suggested by Rezvani, as set forth in Applicant’s January 30, 2006 response and incorporated herein. Applicant respectfully requests allowance of new claim 31.

**E. Conclusion**

For all the foregoing reasons, a notice directed allowance of claims 6 – 12, 15, 17 – 20, 23, 24, and 27 – 31 remaining in the present application is respectfully requested. If necessary, applicant requests, under the provisions of 37 CFR 1.136(a) to extend the period for filing a reply in the above-identified application and to charge the fees for a large entity under 37 CFR 1.17(a). The Director is authorized to charge any additional fee(s) or any underpayment of fee(s) or credit any overpayment(s) to Deposit Account No. 50-3001 of Kyocera Wireless Corp.
